

Johanson Dielectrics Product Line Change

Original Date: January 6, 2022

Revision Date: September 28, 2022

Dear Valued Customer:

Johanson Dielectrics (JDI), due to market conditions, has decided to discontinue offering most of its low voltage surface mount Multi-Layer Ceramic Capacitors (MLCC). In general, the parts to be discontinued are characterized below

- All case sizes: 0201 (R05) through 1812 (S43)
- All voltages < 250V
- All Capacitance values < 1 μ F

The detailed part values can be viewed in the hyperlink:

<https://www.johansondielectrics.com/surface-mount-mlc-capacitors>

However, several of these parts are in critical applications that would require costly requalification and are not affected by this notification. **JDI will continue to offer the following part numbers indefinitely for existing business only.**

These are NOT for new opportunities.
